Please read all of the instructions and look at the pictures before attaching the module.

1. Hub and Cover: Before installing the hub, it needs to be inserted into the cover. Ensure the hub ports align with the cable retention slots as shown in the pictures. The included USB-C male to male adapter included is used to connect the hub directly to the back of the USB-C 3.1 dock.

2. Slide the hub and cover onto back of the dock ensuring the USB-C adapter engages into the hub and secures it. Secure the Hub: Using the included fasteners and tool, secure the hub cover to the dock.

3. Secure any USB cables with the included Zip ties as shown in the pictures.

4. The holder and hub is in place.
